

Transcendent TR MAUI App Guide: Android (SSO Login)

Version 1: Corporate (SSO) Users

Overview

This guide provides instructions for installing the new Transcendent Mobile Application (TR MAUI) from the Google Play Store, registering your device, and logging in using your corporate or SSO credentials.

It is important to synchronize your work on the current version of the application on your device before downloading/installing to avoid any issues.

Installing the Transcendent Application

1. Scan or Search:

- **Option 1 (QR Code):** Scan this QR Code with your device's camera and tap "**View in Google Play Store**" to navigate directly to the application.

OR

- **Option 2 (Search):** Open the Google Play Store and search for "**Transcendent Work Management**".

2. **Download:** Locate the app and tap on “Install”.

← Google Play

Transcendent Work
Management

Transcendent Solutions, LLC

Install

3. Once installed, tap on “Open” or tap the app icon on your home screen.

 About

 English

Selecting the Application Mode (Optional)

Heads Up! This screen may not appear if your account is pre-configured.

After registration, you may be asked to select an App Mode. If the “Select App Mode” screen appears, choose the appropriate option below. **If the screen does not appear, skip to the “Logging In” section.**

After the device registers, if the “Select App Mode” screen appears, select the appropriate option:

1. **Perform Work:**
 - Allows user access to the full application (performing work, assets, documents, dashboard, AE, etc.) and **consumes a license subscription.**
2. **Request Work Only:**
 - Only allows viewing and submitting Work Requests. No other functionality enabled.
 - **Does not consume a license subscription.**
 - Can have **unlimited** devices set to this mode at your site. Once registered, you can log in with the same credentials as the Legacy Application.
3. Select your choice and tap “Continue”.

Logging In (SSO Corporate Login)

When presented with the Login page. Use the following steps to log in:

1. Tap on the '**Corporate Login**' button.

2. You will be redirected to your corporate login portal. Log in with your **corporate credentials** (the same credentials used to access the Transcendent website).

Allowing App Permissions

If this is your first time launching the Transcendent Application, you will be asked to accept a few different permissions within the application:

1. **Notifications:** When the application is launched for the first time, the **Notification Permissions** will automatically populate. Select “**Allow**” to receive pop-up notifications for assigned work orders.

2. **Location:** When attempting to use a feature that requires access to location (e.g., switching sites), the **Location Permissions** will automatically populate. Used mostly for users who work at multiple properties. Select “**Allow While Using the App**” for location-based features.

3. **Camera:** The first time you attempt to scan a bar/QR Code, the application will ask for **Camera Permissions**. Select “**Allow**” to use features like scanning bar/QR codes. Otherwise, you will not be able to scan assets.

If you run into any issues with the new application, please let us know as soon as possible at tr-support@actabl.com.
